A Global Leader in LED Lighting and Displays

Since its founding in 1993, SANSI has been dedicated to technological innovation in a wide range of LED applications, from commercial displays to residential lighting. With over 400 in-house engineers, 2,000 employees and 3 advanced factories, SANSI has reached over 40 countries on 5 continents. SANSI utilizes 230,000 square meters of space for manufacturing, sales and customer service to support their commercial and residential projects. Having successfully launched over 10,000 cutting-edge projects including New York Times Square, Hong Kong Zhuhai-Macau Bridge, the Chinese Space Program, Xichang Satellite Launch Center, Shanghai World Expo and the Hangzhou G20 Summit. SANSI upholds its core values of innovation, sustainability and commitment. These have allowed SANSI to maintain the path as an industry leader.

The floodlight (C2020-BW series) has a hollow structure and an air convection design. It is superior and more reliable in performance. The 120° wide-angle optical lens provides a great illuminating effect, which makes the overall lighting environment more harmonious, beautiful and comfortable. It is widely used in commercial exteriors such as hotels, landmarks, exterior walls and bars etc. SANSI Patented Ceramic LED Technology

Ceramic dissipates heat more efficiently than aluminum, SANSI LED chips are mounted onto the ceramic directly, free PCB, ensuring faster heat dissipation.

SANSI and other manufacturer (Patent No.: CN ZL 2012 2 0091432.4)

120° Beam Angle, Lights Up Larger Area, Has Uniform Illumination

With superior optical design, SANSI’s customized lenses ensure better lighting effects.

Energy Saving, Reliable and Safe

High lumens with low wattage, it is easy to install.

Applications: Yards, hotel exterior, bars, KTV’s, commercial space lighting, etc.

Certification: ETL, CE
